

Bay General Clinic — Medical Examination Note

Examination 2026-04-15 · Patient: Jordan Reyes

Examining clinician	Dr. P. Acharya, MBBS
Clinic	Bay General Clinic, San Francisco
Examination date	2026-04-15
Patient	Jordan Reyes (DOB 1989-07-12)
Reason for visit	Post-incident assessment following motor vehicle collision 2026-04-12

Findings

Patient presents with mild stiffness and reduced range of motion in the cervical spine, consistent with grade I whiplash-associated disorder. No neurological deficit. No evidence of fracture on examination; concussion symptoms screened — none reported. Bruising over left clavicle from seatbelt restraint, healing.

Recommendation

Physiotherapy twice weekly for 3 weeks. Over-the-counter analgesics as required. Follow-up review in 4 weeks. Patient advised to take 2 days off work and avoid heavy lifting for 2 weeks.

Signed: Dr. P. Acharya, 2026-04-15
